

ABSTRACT

The purpose of this Children's Social Welfare is to provide child protection, family like service and children development. The Child welfare system is a group of service designed to promote the well-being of children by ensuring safety, security and support to the child. This web development will act as a bridge between the donors and the organization in order to ensure the well-being of the children.

The main objective of this project is to develop a web application for the orphanage to analyze the current requirement and obtain the donation from the donors in an easier way. Child welfare services are in a position to play a crucial role in preventing behaviour problems among maltreated children, as well as intervening to facilitate service delivery for children who exhibit behavioural difficulties. Since, the high standard of living has resulted in the wastage food, clothes, etc. We have developed a web application that results in the reduction of wastage of food, clothes, etc. If the donors donate those to Orphanages.
